**DEYATA KIRULA EXHIBITION FEBRUARY 4<sup>TH</sup>  
1<sup>ST</sup> WEEK FEBRUARY 2009**

Members will be aware of this big Exhibition held every year in February. It draws almost a million people. A proposal was brought forward that the RSSL should take part in it to publicise Amateur Radio. We have discussed with the TRC to explore the possibility of being part of its exhibition pavilion. The main thing if we are to take part is the man-power to participate in it. It runs for almost a week and we need at least 10 people, The decision to take part will depend on the volunteers because it can not be done by one or two people. We will have to take a final decision at the 28<sup>th</sup> January monthly meeting. Please come over and give your views. There is very little time, but you need not worry about exhibits as all that is being taken care of. Your ideas naturally will be welcome, but the main requirements is helpers.

**DEEPEST SYMPATHIES:** On behalf of the RSSL we wish to extend our deepest sympathies to Ernie Perera 4S7EP a founder member and a former President on the loss of his son in law recently. We also sympathise with Mario de Silva 4S7SKR in Matara on the loss of his father.

## **MEMBERSHIP DIRECTORY/CALL BOOK**

### **RACISM- AND THE RSSL**

Not so long ago someone circulated an e-mail about a statement the Australian Prime Minister(sic ex P.M) is supposed to have made regarding Shariya Law and his views and Australian Society. It appeared that the sender of this e-mail is a well known member of the RSSL. This prompted a member to inquire politely whether the RSSL had anything to do with it, while another member some weeks later obviously on second-hand information sent a letter accusing the RSSL of being racist and wanting to resign. It is also learnt that he is asking some other members to resign accusing the RSSL of being racist. As Editor and Secretary I would like to categorically state that the RSSL has had nothing to do with any such thing and that what members do in their private capacity has no connection with the official activities of the RSSL. It will help all of us if people act with more maturity and a sense of responsibility. At the same time it might be in order to state that forwarding e-mails to others who have not agreed to receive such is a violation of the privacy act. The RSSL has made available a membership directory in the form of a call book which is purely for QSL purposes and private use and not for unauthorised use. Careless use of e-mails can cause great harm and it goes without saying that great care should be exercised before sending out e-mails. Some have the habit of using work place computers, which can cause great harm to their workplaces and their own position in the firm by the indiscriminate use of e-mail.
